	<p>To ensure that law and order in Sai Kung Division is maintained at a high level.</p>	<p>◆ To provide a strong, visible uniformed police presence on the streets in order to prevent and interdict violent crimes, quick cash crimes and other criminal activities, including those committed by IIs and Two Way Permit Holders.</p> <p>➤ During the last year, Sai Kung recorded very noticeable decreases in all ‘key crimes’ compared to 2004: burglary (down by 27.4%), robbery (down by 54.5%), theft from vehicle (down by 61.3%), taking a conveyance without authority (down by 28.6%), snatching (down by 100%).</p> <p>➤ Sai Kung has long been regarded as a difficult division to police effectively, given its large area and long coastline. The crime of greatest concern continues to be burglary and the recent decrease is excellent news but is not cause for complacency.</p> <p>➤ A highly visible police presence has been maintained by officers of Sai Kung Division, supported by the deployment of regional units such as the Police Tactical and Emergency Units. Co-ordinated patrols and roadblocks involving these units continued.</p>	

Item	Objective	Programmes Planned for 2006 - 2007	Consultation
<p>9. <u>Police</u> (cont'd)</p> <p>(Sai Kung Division)</p>	<p>➤ The value of flexible tasking of duties was highlighted recently when three illegal immigrants (IIs) were arrested in TWSDIV. These I.I.'s had been responsible for offences committed in SKDIV, TWSDIV, WTSDIV and STDIST. Since the arrest (of these three I.I.'s) reports of robbery and burglary have fallen dramatically in all these areas particularly Sai Kung.</p> <p>➤ A large number of crime prevention leaflets have also been distributed to homeowners with a view to increasing awareness of the need to remain alert and upgrade household crime prevention measures.</p> <p>➤ All burglary victims are now sent a personal letter from myself (the DC WTSDIST) advising them to install burglar alarms and I am happy to report that over half of recipients have installed alarms as a result. Others, whilst not going so far as to install an alarm, have taken other measures to improve security such as installing motion sensors, outdoor lighting and window alarms. However, it must be recognised that detection of such crimes remains difficult, and the district remains convinced that prevention remains the best policy.</p> <p>➤ In September 2005 Sai Kung Division initiated a project whereby residents are encouraged to install CCTV at the approaches to their villages. Signs informing visitors to the village that the area is under CCTV surveillance by CCTV cameras are posted prominently throughout the village to discourage intruders.</p> <p>➤ Flora and fauna continue to be threatened by thieves and poachers; although theft of the famous 'Buddha pine' continues the number of cases is low. Stiff penalties imposed by the courts have also helped to create a significant deterrent.</p> <p>➤ There has been is a 38% decrease in arrests for cross-border offenders, compared to the previous year. During last year 28 I.I.s and 17 two-way permit holders have been arrested for various crimes within the division (eleven I.I.s were arrested for burglaries while eight I.I.s and seven two-way permit holders were arrested for theft of either Aquilaria Sinensis or Buddha pines).</p>
