

**Question on the environmental impacts  
of the three-runway system project of the airport  
(Paper IDC 98/2016)**

**Written Reply from Environmental Protection Department**

With reference to the questions raised in paper IDC 98/2016 by DC member Ms. Yung on dolphin and coral, Environmental Protection Department (EPD) noticed that they asked for details related to decrease in number of dolphins, and Hong Kong Airport Authority's Coral Translocation Plan. As EPD is not the expert department on the two ecological topics, we are unable to respond to the questions. Nevertheless, we understand that the Council has invited Agriculture, Fisheries and Conservation Department and Hong Kong Airport Authority to respond.
