5. Environmental Improvement

Objective

Programmes Planned for 2024-25

5.2 Environmental Protection Department

The Environmental Protection Department (EPD) is mainly responsible for enforcing environmental legislations, implementing policies on environmental protection, and handling pollution complaints in Sai Kung District through its Regional Office (East). Besides, in order to facilitate environmental compliance, EPD has established partnership programmes with trades and offered assistance and advice on compliance related matters. Moreover, activities are also organised with District Councils and local communities to promote public awareness and concern for environmental matters.

Action Plan for Sai Kung District

EPD will continue to keep a close watch on pollution problems in the district. Our primary action items are as follows:

Item 1 : To enforce environmental legislation.

Target : To implement control over polluters by enforcing environmental protection legislation; and to manage and monitor pollution problems in the district through different permit and licensing systems.

Item 2 : To address community needs and handle pollution complaints.

Target : To provide prompt response to enquiries and complaints about pollution in the district through a hotline service; to conduct investigation under our purview and prosecute offenders.

Item 3 : To partner with various trades in promoting environmental compliance.

Target : To form partnership with trades and to enhance their knowledge on environmental protection and promote environmental compliance through seminars, guidelines or liaison meetings.

Item 4 : To arouse public awareness on environmental protection.

Target : To deepen the general public's understanding of Municipal Solid Waste (MSW) charging and promote waste reduction and recycling through Green Outreach and to arouse public awareness of environmental protection through collaboration with local communities.

Priority Items for 2024-25

- To conduct various anti-flytipping measures in the district including ambush operations to flytipping hotspots for around 8 times a month and installation of CCTV surveillance cameras at strategic locations.
- To arouse awareness of heavy vehicle drivers on environmental hygiene issues through displaying education banners along Wan Po Road and distributing leaflet as well as issuing reminder notes to landfill users without proper cover for their transported waste at entrance of the SENT landfill extension.

- To provide residents with community recycling support and environmental education activities, the Recycling Station GREEN@SAI KUNG in Po Lam Lane, Recycling Stores GREEN@PO LAM in MCP Central, GREEN@SAI KUNG TOWN in Man Nin Street, Sai Kung and its Tiu Keng Leng Branch in Ocean Shores have commenced operation separately between August 2021 and January 2023.
- Green Outreach will continue to promote waste reduction and recycling in the community. To tie in the implementation of MSW charging on 1 April 2023, the Green Outreach has stepped up the promotion of MSW charging since mid-August 2023 through promotion activities and on-site demonstrations in housing estates, residential buildings and Recycling Spots of the GREEN@COMMUNITY network, etc., to deepen the general public's understanding of MSW charging, and to educate the public and frontline staff of housing estates/residential buildings to comply with the legislative requirements and actively practice waste reduction and recycling.
- To complement the implementation of MSW charging, the EPD plans to develop a network of Recycling Stores in public rental housing (PRH) estates to facilitate their residents and those living nearby to participate in clean recycling and enhance the cost effectiveness of the recycling network. We are preparing to expand the network to 50 PRH estates progressively starting from the end of 2023, which includes PRH estates in Sai Kung district.

Development of Tseung Kwan O and Sai Kung

(A) Projects under Design**Project No****Works Description and Programme**

1. 7892CL Development at Tseung Kwan O Area 137 and Development off Tseung Kwan O Area 132
&

7895CL As set out in the 2022 Policy Address, Tseung Kwan O (TKO) Area 137 will be developed into a new community primarily for housing purpose, providing about 50 000 residential units for a total population of around 135 000. Subsequent to the announcement of the Preliminary Outline Development Plan for TKO Area 137 and related near shore reclamations in January 2023, we attended 2 SKDC meetings in February and March 2023, arranged 12 meetings with local stakeholders and attended 2 resident forums, to listen to the views of the public.

The consultancy agreement “Development of Tseung Kwan O Area 137 and Associated Reclamation Sites – Investigation, Design and Construction” commenced. Environmental impact assessment and detailed technical assessments are in progress. We will report the updated development plan to SKDC when appropriate, and commence statutory procedures for re-zoning and reclamation. We target to commence construction works in end 2025, with first population intake at TKO Area 137 in 2030.

2. 7851CL Joint Cavern Development at Anderson Road Quarry Site
&

5792CL This Project is to construct the Public Works Central Laboratory (for accommodating the Public Works Central Laboratory at Kowloon Bay that will be demolished afterward) and the Government Records Service’s Archives Centre inside the caverns formed in rock slope of Tai Sheung Tok at the Anderson Road Quarry Development Site. The construction works commenced in July 2023 and are scheduled for completion in the second half of 2028.

8. Planning Coordination**Objective****Programmes Planned for 2024-25**

(B) Works under Construction¹

1. 716CL Tseung Kwan O Further Development - Infrastructure Works for TKO Stage I Landfill Site (Remaining Works)

The project will provide infrastructure for supporting the recreational development at Tseung Kwan O Stage I landfill site. The works mainly include the construction of a sewage pumping station and related sewerage facilities, and a footbridge spanning over the Eastern Channel. The works commenced in January 2021, for completion in 2024, of which the footbridge has been advanced for completion and opening in the first quarter of 2024.

2. 808CL Site Formation and Infrastructure Works for Public Housing Developments at Tseung Kwan O

The project will provide land for residential housing development, involving site formation and infrastructure works for the public housing development site at Northwest of Ying Yip Road, West of Yau Yue Wan Village and East of Hong Kong Movie City. The works commenced in end September 2021 and are scheduled for completion in 2026.

¹ Tseung Kwan O – Lam Tin Tunnel and the Cross Bay Link, Tseung Kwan O were commissioned in tandem on 11 December 2022. The footbridge cum cycle track connecting Tiu Keng Leng Sports Centre and across Chui Ling Road, Chui Shin Street and Road P2 was also opened in December 2022.

8. Planning Coordination	Objective	Programmes Planned for 2024-25
3. 5058TF	Improvement Works at Kau Sai Village Pier	<p>CEDD awarded the works contract for commencement in September 2021 and scheduled for completion in first half of 2024. The scope of the works comprises:</p> <ul style="list-style-type: none"> (i) demolition and reconstruction of the existing pier (including provision of a temporary pier during construction stage); (ii) construction of associated supporting facilities; and (iii) environmental monitoring and mitigation measures for the proposed works.
4. 5057TF	Improvement Works at Leung Shuen Wan Pier	<p>CEDD awarded the works contract for commencement in August 2022 and scheduled for completion in second half of 2025. The scope of the works comprises:</p> <ul style="list-style-type: none"> (i) reconstruction of the existing pier (including provision of berthing spaces, access ramp and ancillary facilities such as roof cover, lighting system, benches, solar panels, Wi-Fi device, etc.); and (ii) environmental mitigation measures and monitoring for the proposed works.
5. 803CL	Development of Anderson Road Quarry Site – Site Formation and Associated Infrastructure Works	<p>The project will provide land for residential housing development, commercial uses, government, institution or community facilities, a quarry park, a quarry lake, open spaces and amenity areas. The construction of site formation and associated infrastructure works commenced in December 2016, and completed in phases since 2022².</p>

² Tseung Kwan O bound and Kowloon bound of the bus-to-bus interchange at Tseung Kwan O Tunnel Toll Plaza opened for public use in October 2020 and May 2021 respectively. The associated pedestrian connectivity facility E12 was opened for public use in August 2021. The two-way escalator link E1, which is in the vicinity of Hiu Lai Court and Po Pui Court and connects Hiu Ming Street with Hiu Kwong Street, was opened for public use in January 2022.

8. Planning Coordination**Objective****Programmes Planned for 2024-25**

6. 818CL Development of Anderson Road Quarry Site – Road Improvement and Infrastructure Works

The project will implement a series of off-site road improvement works and pedestrian connectivity facilities to mitigate the potential traffic impact arising from the population intake of the development of Anderson Road Quarry site. The proposed works commenced in May 2018. The road improvement works were anticipated for completion in phases starting from late 2023. 2 out of 4 pedestrian connectivity facilities (PCF) were completed and opened to the public in September 2021 and December 2022 respectively³. For the remaining two pedestrian connectivity facilities at On Tat Estate, one of the them was completed in June 2023, while the remaining one would be completed in the second quarter of 2024 to match the relevant population intake programme.

³ 2 out of 4 pedestrian connectivity facilities (E8 connecting Hiu Yuk Path and Hiu Ming Street, and E11 connecting TKO bound of bus-to-bus interchange and Sau Mau Ping Road) have been completed and opened to public.

10. Traffic and Transport

Objective

Programmes Planned for 2024-25

Transport Department

10.1 Bus Route Planning Programme for Sai Kung District

To submit annual programme on the proposed changes in franchised bus services for the coming two years in response to the new developments and changes in population in the district

Service improvement, introduction of bus-bus interchange schemes and service rationalization proposals will be made and implemented to meet passenger demand and to enhance the efficiency of bus network. The Transport Department (“TD”) expects to submit the Bus Route Planning Programme for Sai Kung District 2024-25 to the Traffic and Transport Committee in the first quarter of 2024 for discussion. The TD expects to report the result of consultation to the Traffic and Transport Committee in mid-2024, and to implement the settled items when appropriate.

10.2 Major Change in Public Transport Services

To ensure public transport services match changes in passenger demand

The provision of public transport services in the district will continue to be monitored. Consultation with the Traffic and Transport Committee on major changes in public transport services will be conducted to ensure that services provided meet passenger demand.

10.3 Road Improvement Works

To upgrade, improve and expand the existing road network to cope with demand

Traffic flows in the district will continue to be monitored. Necessary improvement (both major and minor) will be planned and implemented to cater for possible traffic growth.

It is expected that the following major improvement works will commence:

- (i) Signalising the Pedestrian Crossing at Clear Water Bay Road near Razor Hill Road;
- (ii) Relocation of Taxi Stand and General Loading/unloading Area, and Designation of Goods Vehicle Only Loading/Unloading Area at Chan Man Street; and
- (iii) Dualling of Hiram’s Highway from Marina Cove to Sai Kung Town (the design and construction is expected to commence in 2024-25).

10.4 Traffic Management Scheme

To ensure the safe and efficient use of the existing road network

To review major road junctions and speed limits where appropriate to improve traffic flow and road safety.
