11b. Ap Lei Chau Main Street 鴨脷洲大街

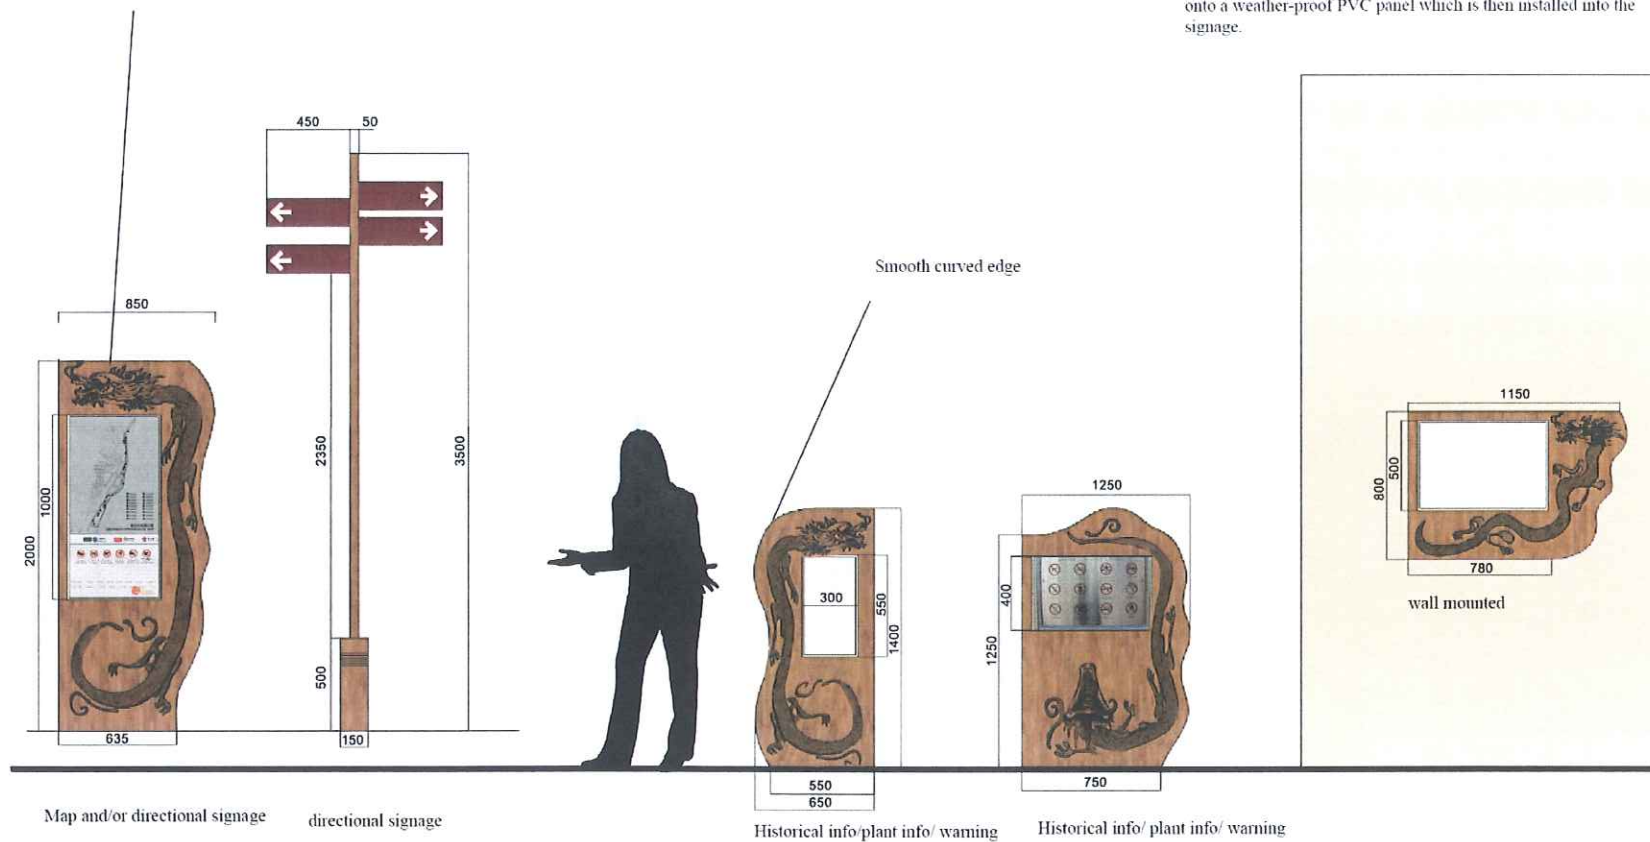

- ① 20mm x 80mm GMS FLAT BAR PAINTED GREY
- ② 10mm x 50mm GMS FLAT BAR PAINTED GREY
- ③ 60mm x 30mm GMS RECTANGULAR POSTS PAINTED GREY
- ④ R.C. FOUNDATION

12a. Other Features – Signages

其他特色 – 指示牌

Dragon Motif imprinted into face of signage unit.
This detail will mimic wood carving

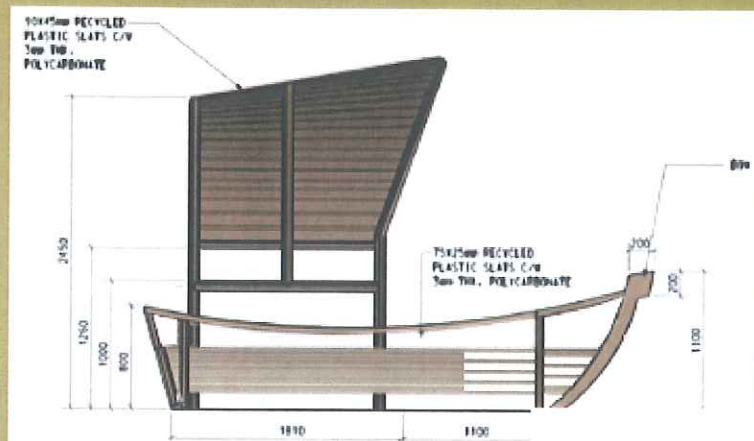

To achieve the Signage units' timber effect and dragon motif inscription it is recommended to use plastic injection molding. Using this method each signage unit would be created in a factory as a single piece.

A hollow interior to the signage unit would allow backlighting of certain units e.g. site map.

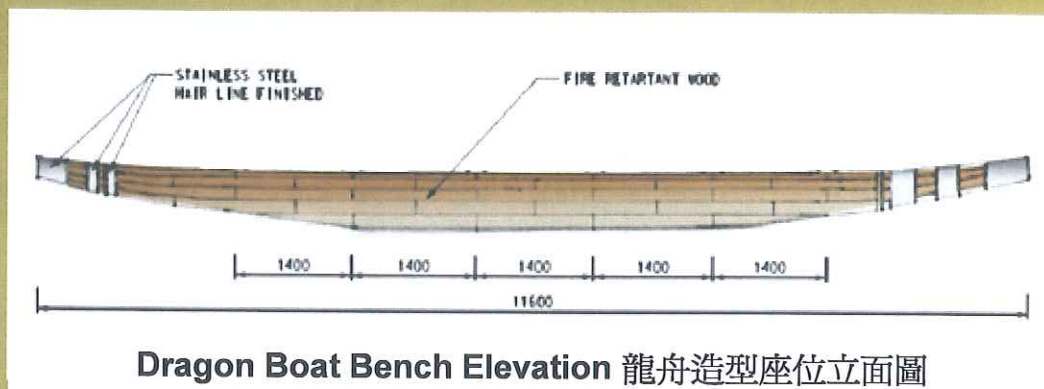

The signage information can be printed and secured behind a transparent plastic panel. Another option is to print/apply signage info onto a weather-proof PVC panel which is then installed into the signage.

12b. Other Features – Seating

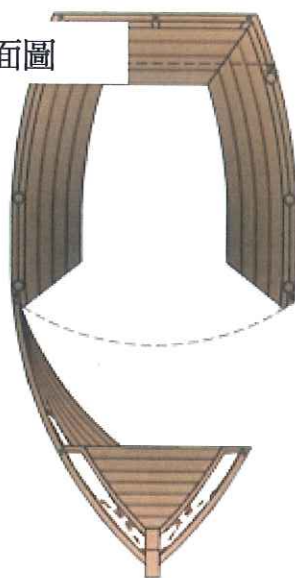

其他特色 – 座位

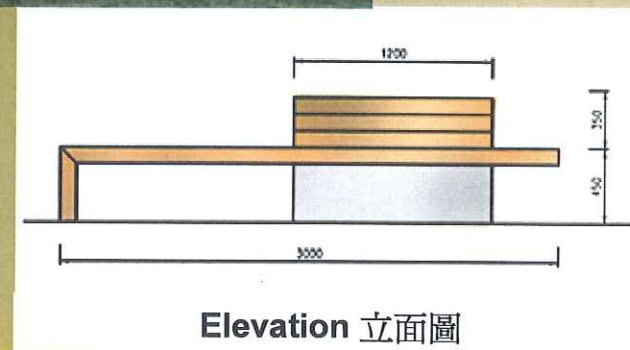

Sampan Seating Elevation 舢舨立面圖

Dragon Boat Bench Elevation 龍舟造型座位立面圖

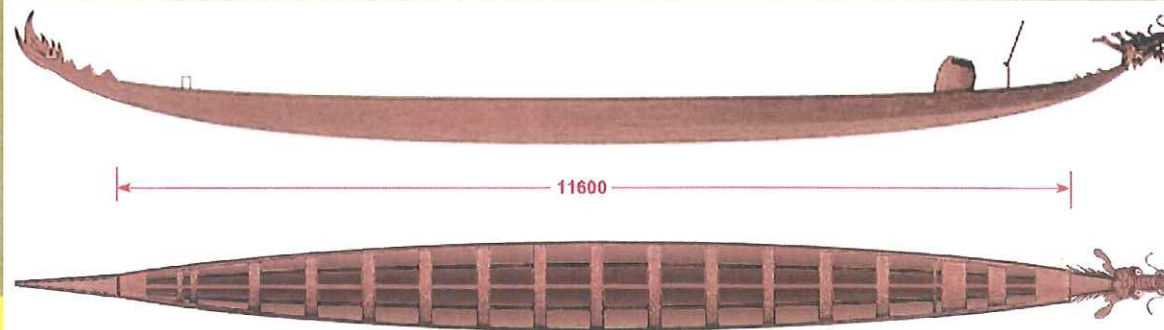

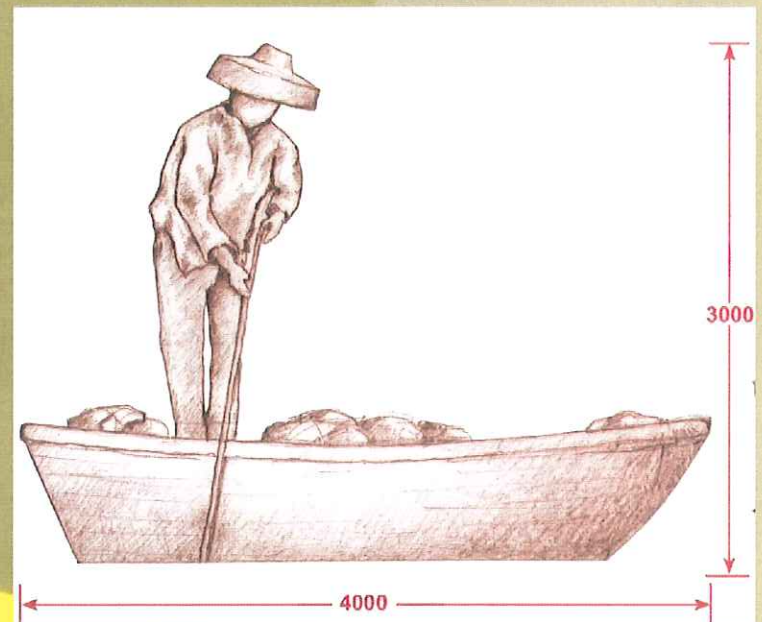

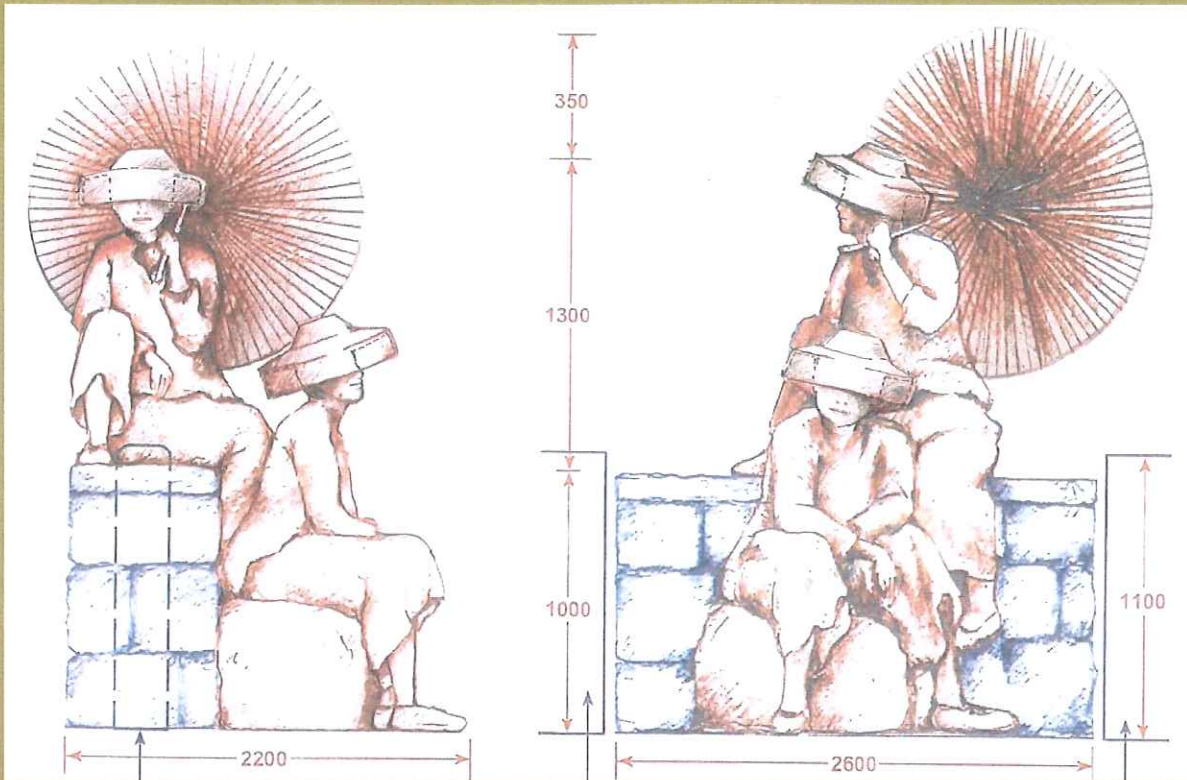

Sampan Seating Interior Plan 舢舨內部平面圖

Elevation 立面圖

12c. Other Features - Bronze Displays

其他特色 – 銅像擺設

12d. Other Features – Boardwalk Paving 其他特色 – 木板路面鋪設
