

C&WDC Paper No. 64/2021 – Annex III

Conflict between skateboarders and residents at Belcher Bay Promenade

Reply from the Leisure and Cultural Services Department (LCSD):

Jointly managed by government departments, the Belcher Bay Harbourfront Open Space is open to the public round the clock. With implementation of minimal rules, it is hoped that more activities can be carried out at the venue, allowing more flexibility and freedom for arrangements.

At present, LCSD arranges for contractor to follow up on the work, including cleaning, horticultural maintenance and report of facility repairs from security guards in the venue. Nevertheless, the department is also willing to support the government departments concerned in educating the public on the use of venue facilities in an appropriate and safe manner.
