

**Concern over the obstruction to traffic by vans at Queen Victoria Street**

Replies From Transport Department :

Q1 : To be replied by HKPF.

Q2 : We have implemented 24 hours “No stopping restriction” at the junction of Des Voeux Road Central and Queen Victoria Street to prohibit vehicles from stopping and undertaking loading and unloading activities at the bend location. At the same time, we will liaise with Police to step up the enforcement action at the junction to improve the overall traffic condition.

Nevertheless, we will explore appropriate traffic improvement measures, which may include the improving scheme of the pedestrian crossing widening, as suggested by the District Council members.
