**Islands District Council  
District Facilities Management Committee  
Paper DFMC 18/2020**

**Question on hygiene condition of toilets, changing rooms and male and female makeup rooms of Islands District's community halls**

Ms Amy YUNG notified this Council that she would raise the following enquiry at the District Facilities Management Committee meeting to be held on 11 May 2020:

“ There are two community halls under the management of Islands District Office (IsDO). The toilets and male and female makeup rooms thereof are also managed by IsDO. In light of the pandemic, such facilities are now closed and regular cleaning and maintenance services have been suspended. As such, I would like IsDO to arrange representative to respond to the following:

1. whether inspection, chemistry tests and maintenance work are carried out at the toilets, changing rooms and male and female makeup rooms (e.g. exhaust fan problems, pools of water on the floor, odour and clogged toilet) during the temporary closure of community halls;
2. whether regular cleaning of the facilities is conducted and the U-shaped drain pipes are filled with water regularly; and
3. whether there are any changes in the current arrangement of installing toilet paper dispensers at the prominent locations of toilets instead of inside each toilet cubicle to ensure the safety of users. ”
