Report on Environmental Monitoring of Mud Pit V

Regarding contaminated mud disposal at the disposal facility to the East of Sha Chau, mud pit Vd was filled up in January 2020 and capping works for the mud pit was in progress. The disposal of contaminated mud was switched to mud pit Vb since then. We have been conducting environmental monitoring and audit programme for the disposal facility. The environmental monitoring and audit results indicated that there was no unacceptable impact to the marine environment nearby.
