

(Translation)

Minutes of the 4<sup>th</sup> Meeting of District Facilities Management Committee (2/16-17)

Date: 5 July 2016

Time: 2:30 p.m.

Venue: Main Conference Room, Tsuen Wan District Office

Present:

Mr WONG Wai-kit (Chairman)

Mr CHAN Sung-ip, MH (Vice Chairman)

Mr MAN Yu-ming, MH

The Hon TIEN Puk-sun, Michael, BBS, JP

Mr KOO Yeung-pong, MH

Mr NG Hin-lung, Norris

Mr LI Hung-por

Ms LAM Yuen-pun, Phyllis

Ms LAM, Lam Nixie

Mr LAM Faat-kang, MH

Mr CHAN Chun-chung, Jones

Mr CHAN Yuen-sum, Sumly

Mr WONG Ka-wa

Mr KOT Siu-yuen

Mr CHOW Ping-tim

Mr CHENG Chit-pun

Mr CHUNG Wai-ping, SBS, MH

Mr LO Siu-kit

Mr TAM Hoi-pong

In Attendance:

Mr CHONG Kong-sang, Patrick      Assistant District Officer (Tsuen Wan), Tsuen Wan District Office

Miss LAM Siu-yung, Daisy      Senior Executive Officer (District Council),  
(Secretary)      Tsuen Wan District Office

Mr YUNG Chi-wai      Senior Inspector of Works (Tsuen Wan), Tsuen Wan District Office

Mr LEE Shing-fai      Executive Officer (Development), Tsuen Wan District Office

Ms PUN Sze-yan, Mickey      Executive Assistant (District Council)<sup>3</sup>, Tsuen Wan District Office

Ms CHEUNG Yuk-king, Dilys      Chief Leisure Manager (New Territories West), Leisure and Cultural Services Department

Mr CHAN Ming-cheong, Horman      District Leisure Manager (Tsuen Wan), Leisure and Cultural Services Department

Ms TSE Ka-yee, Carmen	Senior Librarian (Tsuen Wan), Leisure and Cultural Services Department
Ms LEE Kit-yee, Kitty	Senior Manager (New Territories South)Promotion, Leisure and Cultural Services Department
Mr NG Kam-shuen	Acting Administrative Assistant/Lands (District Lands Office, Tsuen Wan and Kwai Tsing), Lands Department

Absent:

The Hon CHAN Han-pan, Ben, JP

I Opening Remarks and Introduction

The Vice Chairman said that the Chairman would join the meeting later because he was engaged with other commitments, and that he should perform the duties of the Chairman to preside at this meeting during the absence of the Chairman in accordance with section 35(3) of the Tsuen Wan District Council Standing Orders (the “Standing Orders”).

2. The Acting Chairman welcomed the Members and representatives from the government departments to the 4<sup>th</sup> meeting of the District Facilities Management Committee (DFMC). He introduced Mr CHONG Kong-sang, Patrick, who had replaced Mr LEUNG Chun-hei, Winsor to assume the post of Assistant District Officer (Tsuen Wan) (ADO(TW)) of the Tsuen Wan District Office (TWDO) and attended the DFMC meeting for the first time. He also introduced Mr NG Kam-shuen, Acting Administrative Assistant/Lands (District Lands Office, Tsuen Wan and Kwai Tsing) of the Lands Department who attended this meeting on behalf of Mr TSE Hing-chit.

3. The Acting Chairman reminded Members that according to section 28 of the Standing Orders, unless otherwise agreed by the Chairman, each Member could speak and make supplementary remarks once for each agenda item at the meeting. Each Member could speak up to 3 minutes each time.

II Item 1: Confirmation of Minutes of the 2<sup>nd</sup> Meeting held on 3.5.2016

4. The Acting Chairman said that the Secretariat did not receive any proposed amendment before the meeting. The minutes of the meeting were confirmed without amendment.

(Note: Mr CHENG Chit-pun joined the meeting at 2:40 p.m.)

III Item 2: Matters Arising from the Minutes of the Previous Meeting

5. The Acting Chairman said that there were no matters arising from the minutes of the previous meeting.

(Note: Mr LI Hung-por and Mr CHAN Chun-chung, Jones joined the meeting at 2:41 p.m.)

IV Item 3: Proposed New Items under District Minor Works  
(DFMC Paper No. 10/16-17)

6. District Leisure Manager (Tsuen Wan) (DLM(TW)) of the Leisure and Cultural Services Department (LCSD) introduced 11 proposed new projects under district minor works in Tsuen Wan in 2016-17.

7. Mr LAM Faat-kang enquired about the details of project item 9 – Improvement Works of the Master Clock System in Yeung Uk Road Sports Centre.

(Note: Ms LAM, Lam Nixie and Mr CHOW Ping-tim joined the meeting at 2:46 p.m.)

8. DLM(TW) of the LCSD said that project item 9 – Improvement Works of the Master Clock System in Yeung Uk Road Sports Centre included installation of a master clock system in the control room and connection of ducts and electric wires from the control room to the table-tennis room and squash courts. The LCSD would strive to economise on the works expenditure. If the expenditure on works was reduced, the remaining balance would be returned to the TWDO.

9. Members unanimously endorsed the funding application of \$4,333,000 in total for the 11 new projects under district minor works in Tsuen Wan in 2016-17.

V Item 4: Report on Progress of District Minor Works  
(DFMC Paper No. 11/16-17)

10. ADO(TW) of the TWDO briefed Members about the progress of district minor works in Tsuen Wan.

11. The views and enquiries of Mr WONG Ka-wa, Mr MAN Yu-ming, Mr CHOW Ping-tim and Ms LAM, Lam Nixie were summarised as follows:

- (1) enquiry was raised on the latest progress of project item 9 – Construction of Footpath and Railing from Lei Muk Shue Estate to Cheung Shan Estate, Tsuen Wan;
- (2) enquiry was raised on the latest progress of project item 16 – Conversion of Planting Area into Footpath and Tai Chi Playing Area in Tsuen Wan Park and whether the Tai Chi Playing Area could be open for public before the summer vacation;
- (3) it was considered that project item 26 – Replacement of Seating Benches in South Garden of Shing Mun Valley Park would be convenient for public use;
- (4) the LCSD was appreciated for solving the water seepage problem of the canopy near the hard-surface soccer pitch in Shing Mun Valley Park;
- (5) enquiry was raised on the timetable of project item 35 – Replacement and Provision of Seating Benches and a Table at Shing Mun Valley Park;

- (6) it was considered that Tsuen Wan Riviera Park was lacking the improvement works. It was requested to conduct a site inspection with the representatives of the LCSD after the meeting for making improvement proposal to the park; and
- (7) the progress of works conducted in the vicinity of City Point was to be followed up. It was hoped that the LCSD would provide contact information after the meeting so that Members could enquire on the works progress and handle the contingencies.

12. ADO(TW) of the TWDO responded that regarding project item 9, the TWDO had already submitted information about the slope construction works to the Housing Department (HD) in April 2016 and conducted a site inspection with the HD and contractor on 27 April 2016. Based on the HD's comments, the contractor had submitted further information to the HD in late June 2016. The TWDO would keep close liaison with the HD. If the HD did not have other views, the TWDO would commence the tendering procedure as soon as possible.

13. DLM(TW) of the LCSD responded as follows:

- (1) project item 16 – Conversion of Planting Area into Footpath and Tai Chi Playing Area in Tsuen Wan Park was making a good progress. The pouring of concrete was being undertaken currently and then slabs would be paved. It was hoped that the works would be completed before the summer vacation as far as possible;
- (2) project item 35 – Replacement and Provision of Seating Benches and Table at Shing Mun Valley Park was expected to be completed in the current financial year. The LCSD would urge the Architectural Services Department (ArchSD) to install the seating benches and table as soon as possible;
- (3) the LCSD had sent its staff to conduct a site inspection with the staff of the ArchSD at Tsuen Wan Riviera Park. A study on installation of a large clock at the turf pitch and improvement works for the facilities, such as the turf and changing rooms was also being conducted. As the above works was relatively large in scale, the planning and preparatory work would take time and a certain amount of funds should be earmarked; and
- (4) the LCSD would arrange to conduct a site inspection with Members after the meeting.

(Note: Ms LAM Yuen-pun, Phyllis joined the meeting at 2:55 p.m.)

VI Item 5: Request for Provision of Babycare room at the Leisure Venues of the Leisure and Cultural Services Department in Tsuen Wan District  
(DFMC Paper No. 12/16-17)

14. Mr CHENG Chit-pun introduced the paper.

15. The views and enquiries of Ms LAM, Lam Nixie, Ms LAM Yuen-pun, Phyllis and Mr WONG Ka-wa were summarised as follows:

- (1) support was given to the requests made in the paper and breastfeeding;
- (2) as many young families had moved into the housing estates along Tsuen Wan West Station in Tsuen Wan and there was an increase in the number of families getting prepared for having babies, it was supportive towards the proposal on provision of baby care room. Concern was also raised over the management and prevention of abuse of baby care room as rest rooms or storerooms;
- (3) the baby care room was an effective aid for mothers who needed to take care of babies, especially working mothers. In this regard, it was hoped that baby care facilities would be provided at the Government venues in districts to cater for their needs. It was also proposed that breast pumps would be provided at the baby care room;
- (4) location with a relatively low pedestrian flow should be selected for the provision of baby care room, so as to minimise the impacts of passers-by on the users of the baby care room; and
- (5) consideration could be given to the display of guidelines in the baby care room to serve as a reminder that the room was confined to its dedicated functions only and other people who did not breastfeed were advised to leave.

16. DLM(TW) of the LCSD said that the LCSD had all along been supporting and tying in with the Government's policy on promotion of breastfeeding. The LCSD had endeavoured to provide baby care rooms in newly built swimming pools and indoor sports centres. For example, a baby care room would be accommodated in the new stadium complex to be opened in Tsuen Wan West Station TW6 in 2018. Upon receipt of proposal on provision of baby care room at an individual venue from the public, the LCSD and relevant works departments would explore the feasibility of the proposal. If the conditions of the venue allowed, the LCSD would take the proposal into consideration when undertaking renovation works at the venue. The LCSD, however, had not received any request for provision of baby care room at the leisure venues in the district from the public so far. Generally, a baby care room provided by the LCSD would occupy an area of around 7.5 square metres, fitted with good ventilation facilities, stool, nappy changing table, washing basin, hand drier as well as hot and cold water dispenser, etc. Moreover, baby care room had not been provided yet at other leisure venues in the district for the time being. Regarding Members' proposal, the LCSD would firstly explore the feasibility of provision of baby care rooms in the large parks in the district, including Tsuen Wan Park, Tsuen Wan Riviera Park and Shing Mun Valley Park. If feasible proposals were identified, the LCSD and relevant works departments would explore to take forward the implementation of these proposals. After completion of the feasibility study on provision of baby care rooms in the large parks, the LCSD would move on to follow up the proposal on provision of baby care rooms in swimming pools and indoor sports centres. Although baby care room was absent in Tsuen King Circuit Sports Centre, Yeung Uk Road Sports Centre and Shing Mun Valley Swimming Pool, nappy

changing tables had been installed in the changing rooms of the said venues. In addition, the nappy changing tables would be installed at Tsuen Wan West Sports Centre, Wai Tsuen Sports Centre and Tsuen King Circuit Wu Chung Swimming Pool by the LCSD. The staff of the LCSD would provide assistance to users of the venues for breastfeeding upon request, say, lending them the facilities such as the conference rooms for use.

17. The views and enquiries of Mr KOT Siu-yuen and Mr MAN Yu-ming were summarised as follows:

- (1) support was given to the requests made in the paper;
- (2) a survey had been conducted. It was found that around half of the baby care rooms in Hong Kong did not provide electrical outlet. In this regard, it was proposed that the LCSD should provide electrical outlets in baby care rooms so that mothers could use facilities such as breast pumps. Publicity should also be stepped up to discourage the abuse of electrical outlet by the general public;
- (3) it was delighted to note that the LCSD would explore the feasibility of provision of baby care room in Shing Mun Valley Park; and
- (4) concern was raised over the sanitary issues of baby care rooms. It was suggested that the LCSD should launch public education on keeping the baby care rooms clean and arrange staff to step up the cleansing work.

18. DLM(TW) of the LCSD said that the LCSD would carefully select the location for provision of baby care room. The location in close proximity to the office at the LCSD's venue would be selected for easy management of the facilities. The baby care room generally would not be accommodated in the changing room or lavatory for hygienic purpose.

19. The views and enquiries of Mr CHENG Chit-pun, Ms LAM Yuen-pun, Phyllis and Mr WONG Ka-wa were summarised as follows:

- (1) it was delighted to note the LCSD's positive responses and enquiry was raised on whether baby care rooms would be provided at the leisure venues in which nappy changing tables had already been installed;
- (2) it was suggested that the baby care rooms under the LCSD's management should be lent or rented to those in need for use;
- (3) the primary facilities of baby care room should include the nappy changing table. It would be more satisfactory if other ancillary facilities such as washing basin, refrigerator, enclosed refuse bin and electrical outlet were provided; and
- (4) it was hoped that baby care rooms would be provided in future facilities in Tsuen Wan.

20. DLM(TW) of the LCSD responded as follows:

- (1) as the three large parks in the district did not have any baby care facilities, the LCSD would first explore the feasibility of provision of baby care rooms in these parks and identify the locations suitable for

provision of baby care rooms with the ArchSD. The changing rooms of Tsuen King Circuit Sports Centre, Yeung Uk Road Sports Centre and Shing Mun Valley Swimming Pool in the district had already been installed with nappy changing tables. The LCSD would strive to provide baby care rooms at the venues under its management. Nevertheless, it was impossible to provide baby care room at some venues such as Tsuen King Circuit Sports Centre due to inadequate space. The staff of the LCSD would provide assistance to users of the venues for breastfeeding upon request, say, lending them the facilities such as the conference rooms for use;

- (2) venue users had priority in using the facilities under the LCSD's management. The LCSD would provide assistance for other members of the public who needed to use the facilities as far as possible; and
- (3) a baby care room equipped with an individual breastfeeding room, stool, nappy changing table, washing basin, hand drier and hot & cold water dispenser would be provided in the proposed stadium in Tsuen Wan West Station TW6. If there was adequate space to accommodate baby care rooms at future leisure venues, the facilities in those baby care rooms would be similar to those provided in the baby care room in the proposed stadium in Tsuen Wan West Station TW6.

VII Item 6: Report on Recreational and Sports Activities and Facilities Management in Tsuen Wan in April and May 2016 by the Leisure and Cultural Services Department

(DFMC Paper No. 13/16-17)

21. DLM(TW) of the LCSD reported the relevant information.
22. The views and enquiries of Mr CHENG Chit-pun, Ms LAM, Lam Nixie and Mr KOO Yeung-pong were summarised as follows:
  - (1) concern was expressed over the water quality of the beaches in Tsuen Wan. Residents relayed that recently, there was large amount of refuse floating from the Pearl River Delta, mostly likely due to wind directions and typhoons. Enquiry was raised on whether the LCSD had handled marine refuse in collaboration with the Marine Department (MD). It was also suggested that the MD should trap marine refuse in order to improve the water quality;
  - (2) the problem of marine refuse should be discussed by the Coastal Affairs Committee. The MD was also requested to address the problem and strive to handle the marine refuse; and
  - (3) the lighting was inadequate for people who swam in Lido Beach in early morning. It was proposed that the LCSD should enhance the lighting for Lido Beach.
23. DLM(TW) of the LCSD responded as follows:
  - (1) the water quality of the beaches in Tsuen Wan was generally maintained at a level from Grade 1 to Grade 3 in 2015. The water quality ranking

of Ma Wan Tung Wan Beach was maintained at Grade 1 while that of Ting Kau Beach and Approach Beach was maintained at Grade 3 for most of the time in 2015. The water quality of the beaches was probably affected by the living environment nearby and it did not necessarily be affected by marine refuse. The LCSD was aware that floating refuse was washed ashore by currents for several consecutive days in June 2016. The affected areas, besides Tsuen Wan, included some beaches on Hong Kong Island and outlying islands, etc. The LCSD had immediately sent its staff to clear the refuse to avoid accumulation. The Environmental Protection Department (EPD) took up the co-ordination work and stepped up the clean-up work. The LCSD had also arranged cleansing staff to clean the refuse on the beaches. In addition, refuse was easily accumulated at Hoi Mei Wan Beach due to its terrain. The LCSD would send more staff to cleanse Hoi Mei Wan Beach after typhoons. The LCSD was responsible for clearing the refuse within the beach area and would inform the MD to handle the refuse found outside the beach area; and

- (2) it was noted that some people would have already swun since 4:00 a.m. The LCSD could maintain appropriate lighting levels at the Main Building and staircase of Lido Beach. Nevertheless, it was more difficult to cast strong light over the sea surface which might trigger complaints from the residents nearby. The LCSD would conduct a site inspection for this situation in due course.

(Note: Mr WONG Ka-wa left the meeting at 3:30 p.m. The Chairman and the Hon TIEN Puk-sun, Michael joined the meeting at 3:32 p.m.)

24. The views and enquiries of Mr KOT Siu-yuen, Mr LAM Faat-kang, Mr NG Hin-lung, Norris, Mr MAN Yu-ming and Mr CHUNG Wai-ping were summarised as follows:

- (1) two big trees near the bus stop at Castle Peak Road had been removed recently. It was suggested that the LCSD should inform the Members concerned as early as possible in future and take up the follow-up work after removal of the two big trees as soon as possible;
- (2) the trees in the district were aging. Some members of the public had been tripped by the roots of several big trees at Lo Tak Court. It was suggested that the departments concerned should conduct examinations for the trees in the district;
- (3) if Members wished to make suggestions on improving the recreation facilities under the LCSD, they could carry out discussion at the meeting of the Working Group on Development and Management of Recreation and Sports Facilities;
- (4) concern was expressed over the water quality of the beaches in Tsuen Wan and the water quality test. In addition to the Escherichia coli (E. coli) level, it was enquired whether other information such as the level of oil and quantity of refuse would be assessed in the water quality test as

well;

- (5) it was suggested that mosquito and biting midge repelling plants should be cultivated in the district; and
- (6) concern was expressed over the progress of greening and beautification works in Tsuen Wan and enquiry was raised on the reason for replacing seasonal flowers with flowering shrubs.

25. DLM(TW) of the LCSD responded as follows:

- (1) regarding the removal of trees, the LCSD would endeavour to achieve good communication and enhance collaboration with the Highways Department (HyD) to improve the work flow. It was hoped that the HyD would complete the pavement works as soon as possible after the LCSD had removed the trees;
- (2) if Members wished to make suggestions on improving the recreation facilities under the LCSD, detailed discussion could be carried out at the meeting of the Working Group on Development and Management of Recreation and Sports Facilities;
- (3) the EPD was responsible for conducting tests on the water quality of public beaches and would inform the LCSD of the relevant rating results. The EPD had carried out a review on the methods and standards of the water quality test in early years and invited a consultant company to assist in conducting the study. Currently, the EPD had continued to adopt the level of E. coli as an indicator of the test;
- (4) the LCSD would step up the anti-mosquito and anti-midge work mainly by eliminating water accumulation and conducting spraying, etc. The LCSD would consider the viability of cultivating mosquito and biting midge repelling plants in the district; and
- (5) the LCSD would plant various flowering shrubs such as Rhododendron, Chinese Ixora and Small Allamanda, etc., to replace the seasonal flowers for environmental protection reasons. The flowering period of seasonal flowers was shorter in general whilst that of flowering shrubs lasted longer and they were colourful as well.

(Note: Mr CHAN Yuen-sum, Sumly left the meeting at 3:40 p.m.)

26. Mr NG Hin-lung, Norris said that the water quality would be affected not only by bacteria, but also by oil and refuse. Hence, he suggested that the level of oil and quantity of refuse should also be assessed in the water quality test.

27. DLM(TW) of the LCSD responded as follows:

- (1) if the oil pollution was severe, the beach would be closed temporarily and the EPD would be requested to conduct the water quality test for the beach. The beach would only be reopened when the water quality was secured. The EPD would also carry out the water quality test in response to special occasions. For example, after the previous oil incident, the EPD had sent its staff to collect water samples every day

until the water was of safe quality; and

- (2) if the quantity of refuse exceeded three times the normal quantity of refuse, the LCSD would inform the relevant departments to co-ordinate the cleansing work.

28. The Acting Chairman said that the problem of marine refuse would be affected by currents and wind directions. Members could call the MD's hotline and make a request for clearance when they found any marine refuse.

29. The Chairman resumed the chair.

VIII Item 7: Report on Cultural Activities in Tsuen Wan District by the Leisure and Cultural Services Department  
(DFMC Paper No. 14/16-17)

30. The views and enquiries of Mr LAM Faat-kang, Mr MAN Yu-ming and the Vice Chairman were summarised as follows:

- (1) the LCSD would organise five district free entertainment programmes in August and September 2016. It was worried that the performance quality might be unsatisfactory. Enquiry was raised on whether the LCSD would review the performances in advance. It was also suggested that the LCSD should invite the performing groups of higher quality to present performances;
- (2) the usage rate of the Exhibition Gallery of Tsuen Wan Town Hall was relatively low. It was enquired if the hirers could use the venue for other performing purposes; and
- (3) as it was hot outdoors in summer and the facilities of electricity supply were readily available at Pak Lam Road Garden Basketball Court in Ma Wan, it was suggested that district free entertainment programmes should only be arranged in Ma Wan in the evenings from Mondays to Thursdays in November or December 2016.

31. Senior Manager (New Territories South) Promotion of the LCSD responded as follows:

- (1) regarding the arrangement of district free entertainment programmes, the LCSD had a list of arts troupes. After registration with the LCSD and passing trial performances, the arts troupes would only be hired when the LCSD confirmed that their performances had reached a prescribed level. Having been officially registered in the LCSD's performer list, the arts troupes would be assessed continuously and their performance would be recorded by the LCSD. If the performance of the arts troupe was persistently unsatisfactory, the LCSD would remove the arts troupe from the list in accordance with the established mechanism. The LCSD would arrange the arts troupes to perform on a rotational basis to ensure that they had equal opportunities to present performances. The LCSD fully respected the arts troupes' freedom of creativity, so the arts troupes would generally determine the contents of performances on their own;

- (2) the Exhibition Gallery of Tsuen Wan Town Hall could also be served as a venue for small-scale performance besides organising exhibitions by the hirers. It was suitable for presenting the performances under simple lighting and sound equipment. The usage rate of the Exhibition Gallery was lower in April and May 2016, probably due to the fewer number of long-run exhibitions. The average usage rate of the Exhibition Gallery was around 70% throughout the year; and
- (3) the LCSD would draw reference from Members' views and timely arrange district free entertainment programmes at Pak Lam Road Garden Basketball Court in Ma Wan in 2017-18.

IX Item 8: Report on Promotional Activities and the Enrolment Rate in Tsuen Wan District Public Libraries by the Leisure and Cultural Services Department

(DFMC Paper No. 15/16-17)

32. Senior Librarian (Tsuen Wan) of the LCSD reported the relevant information.

X Item 9: Progress Report on the Working Groups under the Committee

(A) Working Group on Management of Community Halls

33. Mr LO Siu-kit said that the TWDO was conducting a review on the operation and management of community centres/halls, including the booking arrangements of community centres/halls for continuous and one-off use that had been implemented for two years already. The Working Group would hold a meeting in due course for discussion on the matters concerned.

(B) Working Group on Development and Management of Recreation and Sports Facilities

34. Mr LAM Faat-kang said that the LCSD would organise the "Sport For All Day" on 7 August 2016. Besides a series of major free participation activities, "Free Use of Leisure Facilities" would also be implemented that day. From 9:00 a.m. on 31 July 2016, individual members of the public might book the available leisure facilities on 7 August 2016 at the "Leisure Link" booking counters at the venues of the LCSD on a first-come-first-served basis. Moreover, the Tsuen Wan District Leisure Services Office would organise the "Sport For All Day" at Yeung Uk Road Sports Centre that day and the programmes included Judo for Fun and Demonstration, Family Mini-games, Bouncy Castle for Fun, Body-Mind Stretching for Fun, Fitness Test and Consultation, Agility Test and Health Talk and Exercise Demonstration, etc. Members of the public in the district were all welcome to join.

XI Item 10: Any Other Business

35. The views and enquiries of Ms LAM, Lam Nixie and Mr KOT Siu-yuen were summarised as follows:

- (1) an incident of stray dog attacking members of the public occurred in Tsuen Wan Park at night on 4 July 2016. It was suspected that the stray dog was raised in the construction site nearby. The relevant departments were requested to follow up the incident; and

- (2) concern was expressed over the problem of foreign domestic helpers gathering at Lo Tak Court. The relevant departments were requested to work out solutions to the problem.

36. DLM(TW) of the LCSD said that he would get more information about the problem of stray dog in Tsuen Wan Park from the staff of the LCSD.

37. ADO(TW) of the TWDO said that the TWDO would follow up the problem of foreign domestic helpers gathering in the district with the relevant law enforcement departments.

(A) Information Papers

38. Members noted the following information papers:

- (1) Items Endorsed by Circulation by the District Facilities Management Committee during the Period from 23 April to 24 June 2016 (DFMC Paper No. 16/16-17);
- (2) Financial Statement of District Facilities Management Committee as at 17.06.2016 (DFMC Paper No. 17/16-17).

(B) Date of Next Meeting

39. The Chairman reminded Members that the next meeting was scheduled on 6 September 2016 and the deadline for submission of paper was 22 August 2016.

XII Adjournment of Meeting

40. There being no other business, the meeting was adjourned at 4:05 p.m.

Tsuen Wan District Council Secretariat

27 July 2016
