

(Translation)

Minutes of the 14th Meeting of Tsuen Wan District Council (5/25-26)

Date: 27 January 2026

Time: 2:30 p.m.

Venue: Main Conference Room, Tsuen Wan District Office

Present:

Chairman

Mr AU Ka-shing, Billy, JP (District Officer (Tsuen Wan), Tsuen Wan District Office)

Members

Ms WONG Shuk-fan, Luparker

Mr KOO Yeung-pong, MH

Mr NG Chun-yu

Mr CHU Tak-wing, MH

Ms LAM Yuen-pun

Mr CHOW Sum-ming

Mr YAU Kam-ping, BBS, MH

Dr CHEUNG Man-ka, MH

Dr LEUNG Cheong-ming, Raymond, MH, JP

Mr CHAN Chun-chung

Ms CHAN Shun-shun

Mr CHAN Sung-ip, BBS, MH

Mr MOK Yuen-kwan

Mr TSANG Tai

Mr FUNG Cheuk-sum

Ms WAH Mei-ling

Mr WONG Wai-kit, MH

Mr WONG Kai-chun

Mr KOT Siu-yuen, MH

Mr LAU Chung-kong

Mr CHENG Chit-pun

Government Representatives

Mr CHEUNG Chak-ho, Alex Assistant District Officer (Tsuen Wan), Tsuen Wan District Office

Miss CHEUNG Wing-sze, Amy Senior Liaison Officer (1), Tsuen Wan District Office

Mr HO Kwok-yan, Philip Senior Liaison Officer (2), Tsuen Wan District Office

Mr YUNG Ho-wai, Anthony Senior Liaison Officer (3), Tsuen Wan District Office

Miss LI Sze-man, Amanda Senior Executive Officer (District Management), Tsuen Wan District Office

Mr LAW Ka-hong, Alex	District Commander (Tsuen Wan), Hong Kong Police Force
Mr CHAN Ka-wing, Elvis	Assistant Police Community Relations Officer (Tsuen Wan), Hong Kong Police Force
Ms CHAN Sin-ye, Perin, Cindy	District Social Welfare Officer (Tsuen Wan/Kwai Tsing), Social Welfare Department
Ms LOU Yin-ye, Joanne	District Lands Officer/Tsuen Wan and Kwai Tsing (District Lands Office, Tsuen Wan and Kwai Tsing), Lands Department
Ms LAM Hang-ling, Sara	Administrative Assistant/Lands (District Lands Office, Tsuen Wan and Kwai Tsing), Lands Department
Ms LAI Chui-ying, Cecilia	Chief Transport Officer/New Territories South West, Transport Department
Ms LAW Chi-ping, Iris	Chief Manager/Management (Wong Tai Sin, Tsing Yi and Tsuen Wan), Housing Department
Mr NG Kwok-lun, Wilson	District Environmental Hygiene Superintendent (Tsuen Wan), Food and Environmental Hygiene Department
Mr CHEUNG Biu, Jonathan	Senior Engineer/13 (West), Civil Engineering and Development Department
Ms MAN Yuen-ling, Rachel	Chief Leisure Manager (New Territories West), Leisure and Cultural Services Department
Ms NG Kam-yim	District Leisure Manager (Tsuen Wan), Leisure and Cultural Services Department
Mr LIM Kuen (Secretary)	Senior Executive Officer (District Council), Tsuen Wan District Office
Miss LEUNG Tsz-wai, Apple	Executive Officer I (District Council), Tsuen Wan District Office

In Attendance:

For discussion of item 4

Mr WONG Hei-long, Ken District Engineer/Tsuen Wan, Highways Department

Absent:

Mr CHAN Hiu-chun, MH, JP

Action

I Opening Remarks and Introduction

The Chairman welcomed Members and representatives from government departments to the 14th meeting of the Tsuen Wan District Council (TWDC) and introduced:

- (1) Mr CHEUNG Biu, Jonathan, Senior Engineer/13 (West), Civil

Engineering and Development Department, who attended this meeting on behalf of Mr LAW Tak-chi, George; and

- (2) Mr CHAN Ka-wing, Elvis, Assistant Police Community Relations Officer (Tsuen Wan), Hong Kong Police Force (HKPF), who attended this meeting on behalf of Mr CHAN Hok-chun, Clement.

2. The Chairman stated that Mr CHAN Hiu-chun had applied for absence from this meeting due to other commitments prior to this meeting. The reason for absence was that he had to attend a meeting of an advisory body appointed by the State, which complied with the requirements set out under section 64(1) of the Tsuen Wan District Council Standing Orders (the “Standing Orders”). According to the requirements stipulated under section 64(4) of the Standing Orders, the meeting should decide whether consent should be given to the application for absence. The Chairman enquired whether Members gave consent to this application for absence. Members unanimously gave consent to this application for absence.

3. The Chairman stated that according to the requirements stipulated in the Standing Orders, if a District Council (DC) Member found that he/she had any direct personal or pecuniary interests in a discussion item or relevant matters when attending a meeting of the Council or dealing with matters related to the Council, the DC Member should declare the interests. The Secretariat had not received any declaration of interests prior to the meeting. The Chairman enquired whether Members had to make declarations of interests immediately. No Member made a declaration of interests immediately.

4. The Chairman stated that Members could speak once and make supplementary remarks once on each agenda item at the meeting. Each Member could speak up to two minutes in the first round of speeches and up to one minute in the second round of speeches.

II Item 1: Confirmation of Minutes of the 13th Meeting held on 25.11.2025

5. The Chairman stated that the Secretariat had not received any proposed amendments prior to the meeting. The Chairman enquired whether Members had to put forth proposed amendments immediately. No Member put forth a proposed amendment immediately. Members unanimously endorsed the minutes.

III Item 2: Matters Arising from the Minutes of the Previous Meetings

6. The Chairman stated that there were no matters arising from the minutes of the previous meeting.

IV Item 3: Committees and Working Groups under the Tsuen Wan District Council in 2026-2027

(TWDC Paper No. 19/25-26)

7. The Chairman said that the latest structure and membership lists of the committees and working groups under the TWDC were set out in the captioned paper and its annex. With a view to aligning with the Chief Executive's policy objective of improving building management and the work of the TWDC in the coming year, the TWDC had established the Working Group on Building Management with a term of office until 31 December 2027, as well as extended the term of office of the Working Group on Boosting Local Economy to 31 December 2026. In the meantime, he announced the appointment of the following Members as the Chairmen/Vice Chairmen of the committees and the Chairmen of the working groups for the 2026-27 term:

District Facilities and Works Committee

Mr WONG Wai-kit (Chairman), Mr WONG Kai-chun (Vice Chairman)

Food, Environment and Hygiene Committee

Mr KOT Siu-yuen (Chairman), Mr TSANG Tai (Vice Chairman)

Community Involvement, Culture and Recreation Committee (CICRC)

Mr KOO Yeung-pong (Chairman), Mr CHAN Chun-chung (Vice Chairman)

Traffic and Transport Committee

Mr CHU Tak-wing (Chairman), Mr CHENG Chit-pun (Vice Chairman)

Social Welfare Committee (SWC)

Mr YAU Kam-ping (Chairman), Ms LAM Yuen-pun (Vice Chairman)

Development and Planning Committee

Mr CHAN Sung-ip (Chairman), Mr FUNG Cheuk-sum (Vice Chairman)

Working Group on Boosting Local Economy

Mr CHAN Hiu-chun (Chairman)

Working Group on Building Management

Mr NG Chun-yu (Chairman)

Working Group on Promotion of Cultural and Recreational Activities under the CICRC

Ms WONG Shuk-fan, Luparker (Chairman)

V Item 4: Follow-up on Tsuen Wan District's Work Progress on the District Issues Identified by the Steering Committee on District Governance
(TWDC Paper No. 20/25-26)

8. The Chairman said that the paper set out Tsuen Wan district's work progress

on various key district issues identified by the Steering Committee on District Governance, which was chaired by the Chief Secretary for Administration. The Tsuen Wan District Office would invite the departments concerned to report on the implementation overview of relevant issues in Tsuen Wan district half-yearly.

9. The Chairman asked Members to express their views regarding the work progress on various district issues submitted by the departments.

10. Ms WONG Shuk-fan, Luparker said that there were over 20 primary schools in Tsuen Wan district, yet only 11 of them had participated in the School-based After School Care Service Scheme (the “Scheme”) at present. She suggested that the Social Welfare Department (SWD) should strengthen collaboration with the Education Bureau (EDB) to encourage more schools to join the Scheme, thereby benefiting more working families in need of after-school care services. In addition, some service organisations had reported that the funding process was relatively slow, and in certain instances, they needed to make substantial upfront payments using their own funds. She advised the SWD to review and improve the funding arrangements, with a view to attracting more organisations to provide after-school care services.

11. Mr CHENG Chit-pun said that although the number of primary schools participating in the Scheme had increased to 11, the participation rate remained at only about 50% relative to the 21 primary schools in the school nets of the entire district. Besides, two primary schools in Sham Tseng had not yet joined the Scheme. As far as he knew, schools were concerned about issues arising from participation in the Scheme, such as the overtime payments for janitors, liabilities during activities and insurance arrangements. He proposed increasing incentives to enhance school’s willingness to engage in the Scheme, including subsidising expenses (such as venue maintenance costs, electricity charges and air conditioning charges, etc.) and enriching the content of after-school care services. For example, diversified activities (such as reading or computer sessions) could be incorporated alongside homework guidance. Moreover, he also suggested that the Government could provide resources to assist schools in upgrading facilities so as to further encourage their participation in the Scheme.

12. District Social Welfare Officer (Tsuen Wan/Kwai Tsing) (DSWO(TW/KwT)) of the SWD responded that since the implementation of the Scheme in 2023, the SWD had all along been maintaining close collaboration with the EDB, as well as continuously publicising and promoting the relevant services to schools. This included the recent re-issuance of invitation to encourage more schools to participate in the Scheme, for which there was no upper limit on the number of available places. The SWD understood that a school’s decision on whether to participate in the Scheme involved various considerations, such as manpower arrangement, venue management and students’ family backgrounds. There were also individual schools deeming that

the demand for the Scheme was relatively low. The SWD noted Members' views, and would continue to work with the EDB to encourage more schools to actively consider participating in the Scheme.

13. The Chairman expressed concern over the number of schools participating in the Scheme, and hoped that the departments concerned would proactively encourage schools that had not yet engaged in the Scheme to join. The Secretariat would convey Members' views to the EDB.

(Post-meeting note: The Secretariat had conveyed Members' views to the EDB on 9 March 2026.)

14. Mr NG Chun-yu was aware that many people intended to apply for waiving of medical charges, but currently hospitals only accepted applications from patients with scheduled follow-up appointments or scheduled medical consultations. He opined that DC Members or the Care Teams should assist members of the public in handling the relevant procedures so as to lessen the burden on social workers of the SWD.

15. Mr CHOW Sum-ming said that many people were eagerly anticipating the completion of Wing Shun Street Community Complex in the first quarter of 2026. He enquired about the specific service quotas and relevant arrangements for the child care centre and neighbourhood elderly centre that were newly provided in the building.

16. Mr WONG Wai-kit enquired whether elderly persons who had successfully applied for using the emergency alarm system (EAS) through the District Services and Community Care Teams – Pilot Scheme on Supporting Elderly and Carers could continue to use such service free of charge upon the conclusion of the Pilot Scheme.

17. DSWO(TW/KwT)) of the SWD responded as follows:

- (1) regarding the application for waiving of medical charges, in addition to medical social workers, the integrated family service centres under the SWD could also assist members of the public with their applications. The SWD had earlier held a briefing session for district partners (including some DC Members and non-governmental organisations) to explain the application procedures. Briefing sessions might be arranged again as necessary in the future for DC Members to learn about the points to note concerning such applications; and
- (2) as regards details of the social welfare facilities in Wing Shun Street Community Complex, the SWD would give a brief account at meetings of the SWC in a timely manner; and
- (3) in regard to the follow-up arrangements for the EAS service, the SWD

would make further reports at the meeting after obtaining relevant information.

18. Mr CHENG Chit-pun pointed out that many Sham Tseng residents kept dogs. He suggested that the Food and Environmental Hygiene Department (FEHD) should increase the frequency of street cleansing in Sham Tseng during the summer months, as well as adjust the cleansing time to avoid morning peak hours for the convenience of commuters and students.

19. Mr CHU Tak-wing was concerned about the problem of rodent infestation in the district. He pointed out that although many streets and rear lanes appeared clean and tidy, traces of rodents were still frequently observed.

20. Ms LAM Yuen-pun advised the FEHD to strengthen cleansing at locations that were often frequented by dogs. Besides, although the FEHD had arranged for cleaning workers to conduct regular scavenging operations on streets with high pedestrian flow near some housing estates, deep cleansing or ground-washing with high pressure water jet cleaners was rarely carried out, resulting in noticeable colour differences on pavements. She suggested arranging for deep cleansing with the use of new equipment on streets that appeared clean on the surface but had not been thoroughly cleansed for a long time.

21. Mr KOT Siu-yuen said that Lo Tak Court was an area crowded with a variety of restaurants, and noticeable stains could often be found on its pavements. Although the FEHD had deployed staff for cleansing, the results had been far from satisfactory. He anticipated that pedestrian flow at the area concerned would be extremely heavy during the Lunar New Year Fair, and requested the FEHD to step up its cleaning efforts. Moreover, regarding the FEHD's arrangement for placing large refuse bins and implementation of rodent control measures at the areas around Lo Tak Court, he advised the FEHD to strengthen coordination with relevant stakeholders so as to enhance the overall effectiveness.

22. Mr WONG Kai-chun said that dog faeces were repeatedly found near the bus stop at Hong Kong Garden, which had caused nuisance to passengers waiting for buses. Such situation was quite undesirable. In addition, many dog owners were in the habit of walking their dogs on the nearby footbridge, leading to frequent instances of dog fouling thereon. He suggested that the FEHD should increase the frequency of cleansing at the location concerned.

23. Dr CHEUNG Man-ka said that the problem of logistics companies piling up a large number of online shopping parcels on pavements had been increasingly serious. Such behaviour had not only hindered pedestrian access but also heightened

the risk of personal data breaches. She opined that the problem concerned involved the remits of various departments, and suggested that the FEHD should redouble its efforts in taking follow-up actions. She also said that DC Members could provide assistance and complement the relevant work at the district level.

24. Mr LAU Chung-kong said that he had received complaints about online shopping parcels occupying pavements in Lei Muk Shue Estate. He had already communicated with the frontline staff in the logistic sector to convey residents' demands. He suggested that the FEHD should step up patrols, and indicated that DC Members were willing to provide on-site assistance in advising the relevant parties as and when necessary, with a view to ensuring that the pedestrian walkway remained unobstructed.

25. District Environmental Hygiene Superintendent (Tsuen Wan) of the FEHD responded as follows:

- (1) the FEHD was pleased to discuss with Members adjustments to the cleansing schedules at specific locations so as to minimise the impact on the public. As regards the suggestion on increasing the frequency of cleansing at specific locations, he would further follow up with Members after the meeting;
- (2) the anti-rodent strategies focused on eliminating the fundamental survival conditions of rodents, namely food, harbourage and passages. The FEHD would put greater efforts in street cleansing, rodent control and filling of rat holes. It would also maintain liaison with property management companies and relevant departments to enhance efforts in repairing damaged areas of buildings and promoting health education;
- (3) in regard to improving the environmental hygiene of Lo Tak Court, the FEHD would strengthen cleaning in areas crowded with restaurants in a timely manner, and would explore with the Highways Department (HyD) ways to strengthen the cleansing of paving blocks;
- (4) the FEHD would step up its cleaning efforts in the areas around the bus stop at Hong Kong Garden and the nearby footbridge; and
- (5) regarding the problem of online shopping parcels being piled up on pavements, since these parcels were not considered refuse, it was difficult for the FEHD to handle such problem by invoking the prevailing legislation directly at this stage. Yet, if handcarts and packaging removed from parcels were found to be discarded at public places and had caused obstruction, the FEHD could instigate prosecution in accordance with the law.

26. Ms LAM Yuen-pun expressed concern about the recent emergence of on-street booths promoting health check-ups, and pointed out that these on-street booths lured elderly persons to purchase health assessment service packages by

offering them at low prices. However, these health assessment services were actually ineffective in detecting the diseases they claimed to screen for. She suspected that the aforementioned on-street booths engaged in false advertising and might even involve fraudulent practices. She suggested that the Police should closely monitor and actively follow up on the matter concerned.

27. District Commander (Tsuen Wan) of the HKPF responded that, from a legal perspective, if the services advertised by a merchant ultimately failed to achieve the claimed effects, it might constitute a violation of the Trade Descriptions Ordinance (TDO). In regard to whether it amounted to fraud, other elements of the offence must be present. Although the Police was not the designated enforcement agency for the TDO, it would continue to closely monitor similar activities in the district, and would maintain close liaison and cooperation with relevant departments such as the Hong Kong Customs and Excise Department. In the meantime, the Police would strengthen public education to raise awareness of fraud prevention among members of the public (especially the elderly) so as to prevent them from falling victims to unscrupulous sales practices.

28. Ms WONG Shuk-fan, Luparker pointed out that in addition to colour inconsistencies and accumulation of stains on the paving blocks in Lo Tak Court, certain sections of the pavements were uneven, posing safety hazards to pedestrians. In particular, elders and children might trip over some protruding paving blocks and get injured easily at road sections they frequently passed by. She proposed that the HyD should review the colour scheme of paving blocks and the evenness of paved surfaces again at the location concerned, as well as install additional manhole covers with local characteristics, with a view to comprehensively enhancing the walking environment and pedestrian safety in the area.

29. Mr CHOW Sum-ming said that uneven bituminous road surfaces were observed along Chuen Lung Street near Yeung Uk Road Market. This condition had led to water being splashed up easily whenever vehicles passed by, affecting pedestrians. Besides, the paving blocks of the pavement off the shops along Ho Pui Street were also uneven, creating a potential slip hazard to the elderly. He advised the HyD to follow up as soon as possible.

30. Mr YAU Kam-ping pointed out that the road surface was uneven at the junction where Texaco Road turned into Sha Tsui Road. He suggested that the HyD should strengthen inspections and maintenance so as to reduce the risk of traffic accidents.

31. Mr CHU Tak-wing said that some paving blocks of the pavements in the areas around Chung On Street near Ho Pui Street had shown signs of cracking and unevenness as a result of prolonged use over the years. Moreover, he accorded

recognition to the relevant departments for removing the planters and repairing the damaged paving blocks at the location concerned earlier.

32. Mr KOO Yeung-pong enquired of the HyD about the specific plan for this year's pavement resurfacing works.

33. The Chairman enquired whether the HyD had any plans to replace the existing paving blocks with concrete surfaces in Tsuen Wan district.

34. Ms WAH Mei-ling said that some residents had complained about the unsatisfactory hygiene conditions inside the lifts that attached to footbridges in the district. She hoped that the HyD would enhance routine maintenance and cleaning arrangements for the relevant facilities.

35. District Engineer/Tsuen Wan of the HyD responded as follows:

- (1) the HyD was aware that the road surfaces of individual pavements were frequently subjected to the pressure exerted from vehicle traffic or were affected by loading/unloading activities, which increased the vulnerability of the paving blocks to damage. Therefore, the HyD planned to replace the existing paving blocks with concrete surfaces at certain suitable locations so as to increase the durability of pavement surfaces. However, concrete surfaces were not as aesthetically pleasing as paving blocks, therefore the HyD would continue to prioritise paving blocks for paving road surfaces of pedestrian streets in general. If there were road sections selected as pilot sites for the relevant plan in Tsuen Wan district, the HyD would report to Members in a timely manner;
- (2) the HyD had completed a beautification works project at Lo Tak Court in 2024. The overall design featured a specific theme, including arranging paving blocks in arrow patterns to guide pedestrians, decorating footbridge pillars with motifs that showcased the characteristics of Tsuen Wan and installing unique manhole covers, etc. Regarding the cleaning of paving blocks, the HyD would discuss possible solutions with the FEHD;
- (3) due to frequent loading/unloading activities and the passage of handcarts in the area of Lo Tak Court, the paving blocks tended to become uneven easily. The HyD would conduct regular inspections and maintenance to ensure pedestrian safety;
- (4) the HyD noted the road conditions in the area near Yeung Uk Road Market, and would arrange repair works in a timely manner;
- (5) in addition to routine inspections, the staff of the HyD also utilised new technologies to assist in their work, including using cameras and recognition technology to detect road damage, thereby improving the

efficiency and accuracy of inspections. If potholes were found to pose an immediate danger to drivers, the HyD would carry out emergency repairs within 24 to 48 hours. The HyD would continue to work closely with relevant departments to complement various maintenance needs; and

- (6) regarding the specific plan for pavement resurfacing works and the hygiene conditions inside the lifts that attached to footbridges in the district, the HyD would provide detailed information and follow-up arrangements to relevant Members after the meeting.

36. Mr CHAN Sung-ip said that he was aware that the Transport Department (TD) had installed a new pedestrian countdown device (the “countdown device”) at the pedestrian crossing on Tai Ho Road. He enquired whether there would be other pilot sites in Tsuen Wan district.

37. Chief Transport Officer/New Territories South West of the TD responded that the TD was currently arranging for the countdown devices to be tested at different locations across the territory in stages, so as to collect more comprehensive data, evaluate the effectiveness of the countdown device and provide references for setting future policy directions. The TD had no plans to increase the number of pilot sites in Tsuen Wan district at this stage.

38. The Chairman said that he noted that the Government planned to carry out road marking renewal works at suitable locations in various districts. He asked the HyD to report on the relevant details during the next discussion on Tsuen Wan district’s work progress on the district issues.

39. Mr FUNG Cheuk-sum said that once the play equipment in public rental housing (PRH) estates was damaged, it often took six months to a year to complete replacement. For instance, a piece of play equipment off Kwai Shue House, Lei Muk Shue (II) Estate had been crushed and damaged by fallen trees during a typhoon in August 2025 and remained cordoned off without replacement to date, causing inconvenience to residents. Besides, residents also needed to wait as long as four to five months for repairs or replacements of their entrance doors. He opined that entrance doors were very crucial in safeguarding the safety of residents and their property, and the prolonged waiting time for repairs was undesirable. He suggested that the Housing Department (HD) should expedite the progress of repair works to avoid affecting the daily lives of residents.

40. Chief Manager/Management (Wong Tai Sin, Tsing Yi and Tsuen Wan) of the HD responded as follows:

- (1) regarding the maintenance of play/fitness equipment, the Housing Authority adopted the “repairing by original agents” strategy, with the

original agents being responsible for repairs of the equipment to ensure that the equipment met the safety standards of the original design to safeguard residents' safety;

- (2) currently, play/fitness equipment of PRH estates managed by the HD must be designed, assembled and repaired by agents listed on the "Housing Authority Play/Fitness Equipment Agents Reference List" (the "List"). At present, there was a total of seven agents on the List;
- (3) the HD's staff would conduct regular inspections to the play/fitness equipment. If defects were identified on the equipment, workers would be notified immediately to carry out inspections. Upon preliminary inspection, the workers would arrange for the relevant agent to conduct professional inspection and necessary repairs. If it was found that the play equipment could not be repaired upon inspection, replacement would be arranged as soon as possible. Regarding the progress of the replacement of the play equipment off Kwai Shue House, Lei Muk Shue (II) Estate, the HD would follow up further; and
(Post-meeting notes: the damaged play equipment off Kwai Shue House, Lei Muk Shue (II) Estate had been removed on 9 February 2026, and the location concerned was partly open for use by residents. The estate office was currently conducting the tendering exercise for replacing the play equipment concerned. The works were expected to be completed by the third quarter of 2026.)
- (4) as regards the arrangement for replacing the entrance doors of residential flats, the entrance doors of residential flats in PRH estates generally followed standard dimensions. The HD usually kept such doors in stock so the replacement process would not take too long. The HD would further learn about the individual cases from Members after the meeting if there were any.

41. The Chairman supplemented that the district issue on "caring for the elderly and promoting digital inclusion" undertaken by the Digital Policy Office (DPO) had been reported earlier at the meeting of the SWC. Members who had any views could contact the DPO directly or share their thoughts through the Secretariat.

VI Item 5: Information Paper
Reports on Meetings of the Committees and Working Group under the Tsuen Wan District Council
(TWDC Paper No. 21/25-26)

42. The Chairman said that the reports on the meetings of the six committees and a working group under the TWDC were set out in TWDC Paper No. 21/25-26.

43. Members noted the captioned paper.

VII Item 6: Any Other Business

44. The Chairman said that the Hong Kong Federation of Youth Groups (HKFYG) had invited the TWDC to become a supporting organisation of the 2026 NEIGHBOURHOOD First 18 Districts Reunion Lunch. The event concerned was held annually during the Lunar New Year in all 18 districts across the territory in a regular manner, aiming to promote the message of mutual assistance among neighbours and community care. This year's reunion lunch would be held on 7 February 2026. The Chairman asked if Members agreed that the TWDC should become a supporting organisation and approved the use of the TWDC's logo by the HKFYG. Members unanimously agreed to the arrangement.

VIII Item 7: Date of Next Meeting

45. The Chairman said that the date of the next meeting was 31 March 2026 (Tuesday). According to the Standing Orders, Members who wished to raise an item for discussion at a meeting were required to submit the paper with a notice in writing to the Secretariat ten clear working days before the meeting. Hence, the Chairman reminded Members that the deadline for submission of papers was 16 March 2026 (Monday).

Tsuen Wan District Council Secretariat
March 2026
